Michael J. Leonard, Executive Director

Kristin M. Knutson, Superintendent of Recreation & Facilities

Traci A. Munkvold, Superintendent of Finance & Human Resources

Michael L. Huber, Director of Golf Operations

# Channahon Park District - Organizational Chart

Our mission is to serve by creating diverse opportunities and experiences that enhance quality of life.

August 30, 2022

To: Board of Commissioners

Channahon Park District Residents

The Comprehensive Annual Financial Report of the Channahon Park District (the District) for the fiscal year ended December 31, 2021 is hereby submitted.

Management assumes full responsibility for the completeness and reliability of the information contained in the report, which based upon a comprehensive framework of internal controls should not exceed anticipated benefits; the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements

The District's financial statements have been audited by Lauterbach & Amen, LLP., a firm of licensed Certified Public Accountants. The Independent Auditor's Report is located at the front of the financial section of the report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements.

### **Profile of the District**

The District is a special unit of local government, empowered by the State of Illinois under the Park District Code with separate tax levying power, including debt retirement. The District was formed by voter referendum in 1971.

The District is located approximately 50 miles southwest of the City of Chicago, in Will and Grundy Counties, Illinois. Interstate 55 and the Des Plaines River divide the District into east-west and north-south quadrants. The northwest and southwest quadrants are primarily residential and retail-commercial; the northeast and southeast quadrants are primarily industrial.

The District serves the Village of Channahon, unincorporated Channahon Township, and the portions of the Village of Minooka in Will County. The Park District's residential population is estimated at 16,915 as of 2021.

The District provides public parks, managed open spaces, comprehensive recreational programming, and special events for its residents and visitors.

The District owns 552 acres of real property. Major park locations include Arroyo Trails, Community Park, and Central Park. Facilities include Heritage Bluffs Public Golf Club, Arrowhead Community Center, Heritage Crossing Field House, Tomahawk Aquatic Center. Skateland Recreation Center was closed in 2020.

In addition to affiliations with the Illinois Association of Park Districts, the Illinois Park and Recreation Association, and the National Recreation and Park Association, the District is recognized as an Illinois Distinguished Accredited Park and Recreation Agency with Reaccreditation achieved in 2020 and is Accredited by the Park District Management Agency.

Five elected Park Commissioners run for office on an at-large, non-partisan basis. Serving staggered six year terms without compensation, they act as the governing board for the District. An Executive Director is appointed by the Board and is charged with carrying out District policies and making recommendations for new or amended policies, programming and capital expenditures working with a team of 18 full time, 95 part time, and over 200 seasonal Staff Members.

### **Economic Condition and Outlook**

Significant portions of the District include large industrial investments by national and global corporations. The largest of these, ExxonMobil's Joliet Refinery, has executed a series of multi-year valuation agreements that stipulate equalized valuation levels for stability to the property owner and the governmental bodies and long term growth. Aux Sable Liquid Products properties are included in a Tax Increment Financing (TIF) agreement with the Village of Channahon designed to bring their innovative natural gas extraction and fractionation facility to the community: an agreement not only reflects annual increases to their investment, but their annual TIF surplus returns approximately 70% of real estate taxes paid to area local governments.

Increases in commercial and industrial property were sufficient to offset declines in residential valuation property values in all but two years since 2008. 2021 also saw a continuation of residential building that re-started in 2016 at a pace that will continue into the future. The Village of Channahon counts current capacity of over 234 residential building lots ready for permitting, and there were 108 housing starts in 2021.

### **Major Initiatives**

- a. In partnership with People for Channahon Parks Foundation, the District will continue to develop the final phases of Arroyo Trails, which will include a bandshell, bathrooms, extension of the Board walk and a potential coverage bridge in the coming years.
- b. The District 2020-2025 Strategic Plan is a guide with standards, based on industry best practices and consistent with the identified needs and opportunities in the District, for ensuring an appropriate and equitable balance of programs and amenities. The plan includes measurable strategies to achieve the District goals. The plan shows the District where we are today, Where the District is going tomorrow, and strategies on how to get where we want to be.
- c. The District started construction upgrades to the cart path and clubhouse at Heritage Bluffs Golf Course in 2021 for completion in 2022.
- d. The District developed plans to repair and upgrade Tomahawk Aquatic Center for construction in the fall of 2023 and winter of 2024.
- e. Upgrades to golf maintenance equipment continue under a multi-year replacement program.
- f. Volunteerism levels were significant through youth sports coaching, flower bed maintenance, special projects, and partnerships with local service organizations.

### **Accounting Systems and Internal Controls**

The District uses a modified accrual basis for accounting of its funds, with full accrual accounting used for proprietary funds.

Illinois State Statutes require the completion of an independent annual audit. Their report and findings are included in this report. Additional financial filings are completed with the State of Illinois Office of the Comptroller and the County Clerks for Will and Grundy Counties.

District administrative Staff Members establish and maintain a series of internal controls under policies approved by the Board of Commissioners.

### **Budgetary Controls**

The District's Fiscal Year runs January 1 through December 31 annually. Staff prepare and the Board of Commissioners approves an annual Operating Budget and Capital Improvement Spending Plan. A Budget and Appropriation Ordinance is approved following a public hearing before the Board of Commissioners. Staff Members review budget performance bi-weekly, and the Board reviews monthly.

Additional controls include policies for bill receipt, reconciliation and payment; revenue collection and banking/investing; an Asset Repair, Replacement and Upgrade program; and purchasing policies.

### **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Channahon Park District for the fiscal year ended December 31, 2020. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. The report must also satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our report meets the requirements of the Certificate of Achievement Program and, once again, are submitting it to the GFOA to determine its eligibility for a certificate. It is our hope that the Channahon Park District's Finance Department staff will continually meet the level of excellence required to be granted this award for many years in the future.

### Acknowledgements

This Report has been prepared under the guidance of the District's Finance Team with the assistance and support of the District's Administrative Office, IT, members from the Senior Staff, and the District's auditing firm. The support of the District's Board of Commissioners is integral in the financial and administrative environment success the District enjoys, and was a direct influence on this report.

Respectfully Submitted,

Michael J. Leonard

Executive Director / Board Secretary

### INDEPENDENT AUDITORS' REPORT

August 30, 2022

Members of the Board of Commissioners Channahon Park District Channahon, Illinois

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit(s), each major fund, and the aggregate remaining fund information of the Channahon Park District, Illinois, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit(s), each major fund, and the aggregate remaining fund information of the Channahon Park District, Illinois, as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Channahon Park District, Illinois August 30, 2022 Page 2

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Channahon Park District, Illinois August 30, 2022 Page 3

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Channahon Park District, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

> Lauterbach & Amen, LLP LAUTERBACH & AMEN. LLP

### MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis December 31, 2021

Our discussion and analysis of the Channahon Park District's financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2021. Please read it in conjunction with the transmittal letter, in the introductory section, and the District's financial statements, which can be found in the basic financial section of this report.

### FINANCIAL HIGHLIGHTS

- The District's net position decreased as a result of this year's operations. While net position of business-type activities increased by \$168,263, or 3.7 percent, net position of the governmental activities decreased by \$1,339,014, or 24.7 percent.
- During the year, government-wide revenues for the District totaled \$6,691,296, while expenses totaled \$7,862,047, resulting in a decrease to net position of \$1,170,751.
- The District's net position totaled \$8,847,254 on December 31, 2021, which includes \$10,510,822 net investment in capital assets, \$545,455 subject to external restrictions, and deficit \$2,209,023 unrestricted net position that may be used to meet the ongoing obligations to citizens and creditors.
- The General Fund reported an increase this year of \$61,984, resulting in ending fund balance of \$80,061, an increase of 342.9 percent.
- The Recreation Fund reported a decrease this year of \$209,215, resulting in ending fund balance of \$421,941, a decrease of 33.1 percent.

### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The remaining statements provide financial information about activities for which the District acts solely in a custodial manner for the benefit of those outside of the government.

### **Government-Wide Financial Statements**

The government-wide financial statements provide readers with a broad overview of the District's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/ deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's infrastructure, is needed to assess the overall health of the District.

Management's Discussion and Analysis December 31, 2021

### **USING THIS ANNUAL REPORT - Continued**

### **Government-Wide Financial Statements - Continued**

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include culture and recreation. The business-type activities of the District include golf operations.

The District includes one separate legal entity in its report. The People for Channahon Park Foundation is presented as a discretely presented component unit. Although legally separate, this "component unit" is important because the Foundation directly supports the operations of the District. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

### **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

Management's Discussion and Analysis December 31, 2021

### USING THIS ANNUAL REPORT - Continued

### **Fund Financial Statements - Continued**

### **Governmental Funds - Continued**

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Recreation Fund, Debt Service Fund and Park Bonds Fund, all of which are considered major funds. Data from the other two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

### **Proprietary Funds**

Enterprise funds are reported in the proprietary fund-type financial statements and are used to report the same functions presented as business-type activities in the government-wide financial statements. The District utilizes enterprise funds to account for its golf operations.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Golf Operations Fund, which is considered to be a major fund of the District.

### **Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting use for fiduciary funds is much like that used for proprietary funds.

### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's I.M.R.F. employee pension obligation, the District's other post-employment benefit obligation, and budgetary comparison schedules for the General Fund and major special revenue funds. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information.

Management's Discussion and Analysis December 31, 2021

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Channahon Park District, assets/deferred outflows exceeded liabilities/deferred inflows by \$8,847,254.

	Net Position							
		Governn	nental	Busines	s-Type			
		Activi	ties	Activ	ities	Total		
		2021	2020	2021	2020	2021	2020	
	_							
Current and Other Assets	\$	8,635,529	9,374,236	31,927	(695,702)	8,667,456	8,678,534	
Capital Assets		12,057,846	12,997,410	5,882,055	5,982,420	17,939,901	18,979,830	
Total Assets		20,693,375	22,371,646	5,913,982	5,286,718	26,607,357	27,658,364	
Deferred Outflows		445,587	365,240	183,305	142,350	628,892	507,590	
Total Assets/Deferred Outflows		21,138,962	22,736,886	6,097,287	5,429,068	27,236,249	28,165,954	
Long-Term Debt		11,426,816	12,176,528	644,946	678,582	12,071,762	12,855,110	
Other Liabilities		1,644,826	1,685,747	469,384	6,681	2,114,210	1,692,428	
Total Liabilities		13,071,642	13,862,275	1,114,330	685,263	14,185,972	14,547,538	
Deferred Inflows		3,979,542	3,447,819	223,481	152,592	4,203,023	3,600,411	
Total Liabilities/Deferred Inflows		17,051,184	17,310,094	1,337,811	837,855	18,388,995	18,147,949	
Net Postion								
Net Investment in Capital Assets		4,628,767	4,612,001	5,882,055	5,982,420	10,510,822	10,594,421	
Restricted		545,455	248,816	_	_	545,455	248,816	
Unrestricted (Deficit)		(1,086,444)	565,975	(1,122,579)	(1,391,207)	(2,209,023)	(825,232)	
Total Net Position	_	4,087,778	5,426,792	4,759,476	4,591,213	8,847,254	10,018,005	

A large portion of the District's net position, \$10,510,822 or 118.8 percent, reflects its investment in capital assets (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$545,455 or 6.2 percent, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining deficit unrestricted net position, \$2,209,023 or 25.0 percent, may be used to meet the government's ongoing obligations to citizens and creditors.

Net position of the District's governmental activities decreased by 24.7 percent (\$4,087,778 in 2021 compared to a restated \$5,426,792 in 2020). Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, decreased by \$1,652,419 from 2020 to (\$1,086,444).

Net position of business-type activities increased by 3.7 percent (\$4,759,476 in 2021 compared to \$4,591,213 in 2020).

Management's Discussion and Analysis December 31, 2021

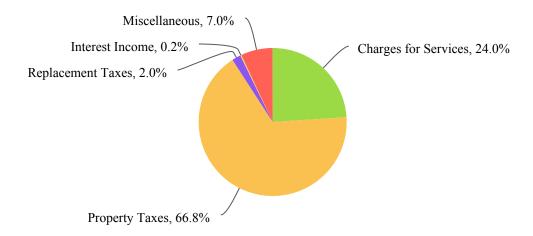

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued**

### **Governmental Activities**

Revenues for governmental activities totaled \$4,940,678, while the cost of all governmental functions totaled \$6,279,692. This results in a decrease of \$1,339,014. In 2020, revenues of \$4,635,351 exceeded expenses of \$3,987,423, resulting in an increase of \$697,928. The decrease in 2021 was due in large part to an decrease in grant income, coupled with an increase in expenses in comparison to 2020.

The following table graphically depicts the major revenue sources of the District. It depicts very clearly the reliance of property taxes (66.8%) and charges for services (24.0%) to fund governmental activities.

### **Revenues by Source - Governmental Activities**

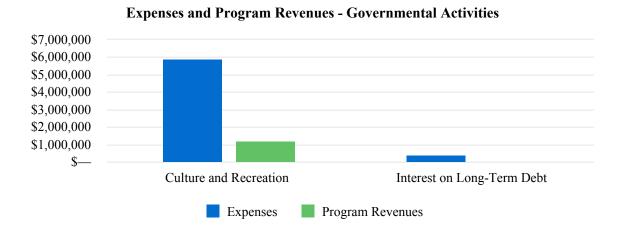

Management's Discussion and Analysis December 31, 2021

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued**

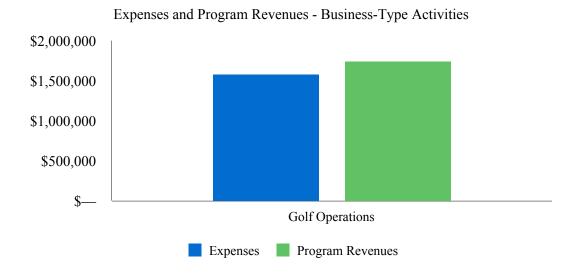

### **Governmental Activities - Continued**

The 'Expenses and Program Revenues' Table identifies those governmental functions where program expenses greatly exceed revenues.

### **Business-Type activities**

Business-Type activities posted total revenues of \$1,750,618, while the cost of all business-type activities totaled \$1,582,355. This results in an increase of \$168,263. In 2020, expenses of \$1,507,742 exceeded revenues of \$1,644,310, resulting in a deficit of \$136,568. The increase in 2021 is due to an increase in charges for services.

The above graph compares program revenues to expenses for golf operations.

Management's Discussion and Analysis December 31, 2021

### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### **Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The District's governmental funds reported combining ending fund balances of \$4,903,678, which is a decrease of \$1,186,443, or 19.5 percent, from last year's total of \$6,090,121. Of the \$4,903,678 total, \$740,290, or approximately 15.1 percent, of the fund balance constitutes unrestricted fund balance.

The General Fund reported an increase in fund balance for the year of \$61,984, or 342.9 percent. This is due in part to property taxes and replacement taxes increasing in the current year.

The General Fund is the chief operating fund of the District. At December 31, 2021, unassigned fund balance in the General Fund was \$80,061, which represents 100.0 percent of the total fund balance of the General Fund. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance in the General Fund represents approximately 6.4 percent of total General Fund expenditures.

The Recreation reported a decrease for the year of \$209,215, or 33.1 percent. This decrease is due increases in salaries and benefits as COVID restrictions were lifted. The fund balance in the Recreation Fund of \$421,941 also represents 22.3 percent of total Recreation Fund expenditures, or approximately a three month reserve.

The Debt Service Fund reported a decrease in fund balance of \$110,041. Remaining fund balance of (\$42,510) is restricted for future debt service costs. The decrease was due to the paydown of a note payable from existing District funds.

The Park Bonds Fund, the District's major capital projects fund, reported a decrease in fund balance of \$1,225,810 resulting in ending fund balance as of December 31, 2021 of \$3,898,731. Remaining fund balance is used to finance the District's capital replacement program. The decrease was due to payments made for the Golf Clubhouse project that were funded in a prior year.

### **Proprietary Funds**

The District's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Management's Discussion and Analysis December 31, 2021

### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS - Continued

### **Proprietary Funds - Continued**

The District reports the Golf Operations Fund as a major proprietary fund. The spread between charges for services and expenses is intended to finance the operations of the golf operations, including labor costs, supplies, and infrastructure maintenance.

The Golf Operations Fund reported an increase of \$168,263 in net position during the current fiscal year. The prior fiscal year reported an increase of \$86,568.

### GENERAL FUND BUDGETARY HIGHLIGHTS

The District Board made no budget amendments to the General Fund budget during the year. General Fund actual revenues for the year totaled \$1,313,227, compared to budgeted revenues of \$1,273,081. This was due primarily to revenues for property taxes were \$12,405 under budget.

The General Fund actual expenditures for the year were \$119,294 under budget (\$1,251,243 actual compared to \$1,370,537 budgeted). Overall cost controlling measures in the General Fund resulted in an increase to fund balance of \$61,984 compared to a budgeted deficit of \$97,456.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

### **Capital Assets**

The District's investment in capital assets for its governmental and business-type activities as of December 31, 2021 was \$17,939,901 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and equipment and vehicles.

	Capital Assets - Net of Depreciation

Management's Discussion and Analysis December 31, 2021

### **CAPITAL ASSETS AND DEBT ADMINISTRATION - Continued**

### **Capital Assets - Continued**

This year's major additions included:

Construction in Progress \$ 83,050

Additional information on the District's capital assets can be found in Note 3 of this report.

### **Debt Administration**

At year-end, the District had total outstanding debt of \$9,833,704 as compared to \$10,428,036 the previous year, a decrease of (5.7) percent. The following is a comparative statement of outstanding debt:

	Long-Term Debt Outstanding						
	Govern	mental	Business	-type			
	Activ	vities	Activit	ties	Total		
	2021	2020	2021	2020	2021	2020

Total	9,833,704	10,428,036			9,833,704	10,428,036	

Additional information on the District's long-term debt can be found in Note 3 of this report.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's elected and appointed officials along with professional staff considered many factors when setting the fiscal-year 2022 budget, tax rates, and fees that will be charged for its governmental activities. The two biggest factors were the mandatory minimum wage increase and restrictions due to COVID-19. The District will continue to tightly monitor budgets in light of the current social and economic environment.

### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Channahon Park District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to Office of the Finance Director, Channahon Park District, 24856 West Eames Street, Channahon, IL 60410.

### **BASIC FINANCIAL STATEMENTS**

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

Government-Wide Financial Statements

**Fund Financial Statements** 

Governmental Funds

Proprietary Fund

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of the Governmental Funds to the Statement of Activities - Governmental Activities

For the Fiscal Year Ended December 31, 2021

Net Change in Fund Balances - Total Governmental Funds	\$ (1,186,443)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the	
Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital Outlays	83,050
Depreciation Expense	(377,814)
Disposals - Cost	(2,480,000)
Disposals - Accumulated Depreciation	1,835,200
The net effect of deferred outflows (inflows) of resources related	
to the pensions not reported in the funds.	
Change in Deferred Items - IMRF	(257,002)
Change in Deferred Items - RBP	98,052
The issuance of long-term debt provides current financial resources to	
governmental funds, while the repayment of the principal on long-term	
debt consumes the current financial resources of the governmental funds.	
Change in Compensated Absences	18,756
Change in Net Pension Liability - IMRF	323,410
Change in Total OPEB Liability - RBP	(84,548)
Issuance of Debt	(885,227)
Retirement of Debt	1,479,559
Change in Bond Premium	61,433
Changes to accrued interest on long-term debt in the Statement of Activities	
does not require the use of current financial resources and, therefore, are not	
reported as expenditures in the governmental funds.	 32,560
Changes in Net Position of Governmental Activities	(1,339,014)

Notes to the Financial Statements December 31, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Channahon Park District, Illinois (District) of Illinois is duly organized and existing under the provisions of the laws of the State of Illinois. The District is operating under the provisions of the Park District Code of the State of Illinois approved July 8, 1947 and under all laws amendatory thereto. The District operates under the commissioner-director form of government. The District provides a variety of recreational facilities, programs, and services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the District's accounting policies established in GAAP and used by the District are described below.

#### REPORTING ENTITY

In determining the financial reporting entity, the District complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus - an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the District. Based upon the criteria set forth in the GASB Statement No. 61, all component units that have a significant operational or financial relationship with the District have been included.

## **Discretely Presented Component Unit**

Discretely presented component units are separate legal entities that meet the component unit criteria described in GASB Statement No. 61 but do not meet the criteria for blending.

## Foundation

The People for Channahon Park Foundation (the Foundation) is being reported as a discretely presented component unit of the District as it is legally separate from the District. The Foundation is a discretely presented component unit because the resources received and held by the Foundation are entirely for the direct benefit of the District, the District has the ability to access those resources, and those resources are significant to the District. Separate financial statements of the Foundation are available by contacting the Administrative Office of the Channahon Park District, 24856 W. Eames Street, Channahon, Illinois 60410.

## **BASIS OF PRESENTATION**

## **Government-Wide Statements**

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The District's preservation of open space, recreational program activities, development and maintenance of the District's various parks and facilities, and general administration are all classified as governmental activities. The District's golf operations are classified as business-type activities.

Notes to the Financial Statements December 31, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### **BASIS OF PRESENTATION - Continued**

## **Government-Wide Statements - Continued**

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions and business-type activities (culture and recreation, golf, etc.). The functions are supported by general government revenues (property and personal property replacement taxes, certain intergovernmental revenues, interest income, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) changes to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property and personal property replacement taxes, charges for services, interest income, etc.).

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

#### **Fund Financial Statements**

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The District may electively add funds, as major funds, which either have debt outstanding or a specific or community focus. The nonmajor funds are combined in a single column in the fund financial statements.

Notes to the Financial Statements December 31, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### **BASIS OF PRESENTATION - Continued**

## **Fund Financial Statements - Continued**

A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental fund or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

## **Governmental Funds**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund (Corporate Fund) is the general operating fund of the District. It accounts for all revenues and expenditures of the District which are not accounted for in other funds. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District maintains one major special revenue fund. The Recreation Fund reports charges for services for recreation programs and property taxes as the major revenue sources and accounts for financial resources of the swimming pools, community centers and other programs.

Debt Service Funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The Debt Service Fund (Bond and Interest Fund) is treated as a major fund and accounts for, and the payment of, general long-term debt principal and interest.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The District maintains one major capital projects funds. The Park Bonds Fund accounts for all resources used for the acquisition and maintenance of capital assets or the construction of capital projects and related debts.

Notes to the Financial Statements December 31, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## **BASIS OF PRESENTATION - Continued**

## **Fund Financial Statements - Continued**

## **Proprietary Funds**

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the District:

Enterprise Funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Golf Operations Fund, a major fund, accounts for the financial resources of the golf course operations.

## MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

## **Measurement Focus**

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Notes to the Financial Statements December 31, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

## **Basis of Accounting**

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Notes to the Financial Statements December 31, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

## **Cash and Investments**

For purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent. For the purpose of the proprietary funds' Statement of Cash Flows, cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. At year-end, the District does not have any investments.

#### Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes.

## **Inventories**

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

## **Interfund Receivables, Payables and Activity**

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers.

Notes to the Financial Statements December 31, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

## **Capital Assets**

Capital assets purchased or acquired with an original cost of \$10,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expenses as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the general capital assets.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements 10 - 50 Years Equipment and Vehicles 5 - 20 Years

## **Deferred Outflows/Inflows of Resources**

Deferred outflow/inflow of resources represents an consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

## **Compensated Absences**

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement.

All vacation pay is accrued when incurred in the government-wide fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Notes to the Financial Statements December 31, 2021

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

## ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

## **Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### **Net Position**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

Notes to the Financial Statements December 31, 2021

## NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### **BUDGETARY INFORMATION**

The appropriation and budget for all governmental fund types is prepared in accordance with generally accepted accounting principles which is the same basis that is used in the fund financial statements. The budget lapses at the end of each fiscal year. The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. During October or November, the District Board prepares a tentative combined annual budget and appropriation ordinance for the fiscal year commencing January 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted at a public meeting to obtain taxpayer comments.
- 3. Prior to December 31, the annual budget and appropriation ordinance is legally adopted through passage of an ordinance.
- 4. The District Board may transfer up to 10% of the total budget between departments within any fund; and after the first six months of the fiscal year may by two-thirds vote transfer from any appropriation item its anticipated unexpended funds to any other item of appropriation thereto made.
- 5. Formal budgetary integration is employed as a management control device during the year for all funds of the District.

## **DEFICIT FUND BALANCE**

The following funds had deficit fund balance as of the date of this report:

	Fund	Deficit	
'			
	Debt Service	\$	42,510

Notes to the Financial Statements December 31, 2021

#### **NOTE 3 - DETAIL NOTES ON ALL FUNDS**

#### DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the District's funds.

Permitted Deposits and Investments - Statutes authorize the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, the Illinois Funds, and the Illinois Park District Liquid Asset Fund.

## Interest Rate Risk, Credit Risk, Concentration of Credit Risk, and Custodial Credit Risk

*Deposits.* At year-end, the carrying amount of the District's deposits totaled \$4,584,059 and the bank balances totaled \$4,903,066.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District limits its exposure to interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. Investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools and limiting the average maturity of the portfolio in accordance with this policy. The maximum length of maturity is 4 years for all operating funds (or the weighted average maturity shall not exceed 3 years).

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. In order to reduce concentration credit risk, the District's investment policy states investments shall be diversified to avoid any over concentration in securities from a specific issuer or business sector (excluding U.S. Treasury and Agency notes). At year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. At December 31, 2021, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance.

For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

Notes to the Financial Statements December 31, 2021

#### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

## **DEPOSITS AND INVESTMENTS - Continued**

## Interest Rate Risk, Credit Risk, Concentration of Credit Risk, and Custodial Credit Risk - Continued

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in commercial paper, corporate bonds and mutual funds to the top two ratings issued by nationally recognized statistical rating organizations. The District's investment policy further limits its investments to obligations that are guaranteed by the U.S. government (a safe security is defined as an investment such that the loss of principal is greatly minimized and the value is not likely to fall) and limiting investments in debt securities and money market mutual funds to those investments rated at least AA by a national ratings agency.

## INTERFUND TRANSFERS

Transfer In	Transfer Out	Amount		
Park Bonds	Recreation	\$	400,000	(1)
Park Bonds	Debt Service		204,105	(2)
			604,105	<b>-</b>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) move receipts restricted to capital projects from the Bond and Interest Fund collecting the receipts to the Park Bonds Fund for future capital needs.

## **PROPERTY TAXES**

Property taxes for 2020 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 30 and September 30. The County collects such taxes and remits them in two fairly equal payments with a third lesser payment of any disputed taxes.

Total Net Capital Assets		5,982,420	(100,365)		5,882,055

Depreciation expense of \$100,365 was charged to the golf operations business-type activities.

Notes to the Financial Statements December 31, 2021

## NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

## LONG-TERM DEBT

## **Capital Leases**

The District has entered into a lease agreement as lessee for financing the acquisition of vehicles and equipment. Capital assets of \$102,080 have been added to equipment and vehicles in the governmental activities as a result of this capital lease. These lease agreements qualify as capital leases for accounting purposes and; therefore, have been recorded at the present value of the future minimum lease payments as of the inception date. The future minimum lease payments and the net present value of these minimum lease payments are as follows:

Fiscal	Lease
Year	Payment
2022	\$ 35,706
Interest Portion	(1,707)
Principal Balance	33,999

## **General Obligation Park/Alternate Revenue Source Bonds**

The District issues general obligation park/alternate revenue source (ARS) bonds to provide funds for the acquisition, construction and maintenance of major capital facilities. General obligation/ARS bonds are direct obligations and pledge the full faith and credit of the District. General obligation/ARS bonds currently outstanding are as follows:

	Beginning			Ending
Issue	Balances	Issuances	Retirements	Balances
General Obligation Limited Tax Park Bonds of 2019, due in annual installments of \$26,190 to \$658,905 plus interest at 2.60% through November 15, 2021.	\$ 26,190	_	26,190	_
General Obligation Refunding Park (ARS) Bonds of 2020A, due in annual installments of \$235,000 to \$660,000 plus interest at 4.00% through December 15, 2040.	9,215,000	_	235,000	8,980,000

For the governmental activities, compensated absences, the net pension liability, and the total OPEB liability are liquidated by the General and Recreation Funds. The Debt Service Fund make payments on the general obligation bonds. The Recreation Fund makes payments on the promissory notes payable. The Park Bonds Fund makes payments on the capital leases payable. For the business-type activities, the compensated absences, the net pension liability, the total OPEB liability and the capital leases payable are liquidated by the Golf Operations Fund.

## **LONG-TERM DEBT - Continued**

## **Legal Debt Margin**

Chapter 70, Section 1205/6-2 of the Illinois Compiled Statutes provides "... for the payment of land condemned or purchased for parks or boulevards, for the building, maintaining, improving and protection of the same and for the payment of the expenses incident thereto, or for the acquisition of real estate and lands to be used as a site for an armory, any park district is authorized to issue the bonds or notes of such park district and pledge its property and credit therefore to an amount including existing indebtedness of such district so that the aggregate indebtedness of such district does not exceed 2.875% of the value of the taxable property therein, to be ascertained by the last assessment for state and county taxes previous to the issue from time to time of such bonds or notes or, until January 1, 1983, if greater, the sum that is produced by multiplying the district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, if a petition, signed by voters in number equal to not less than 2% of the voters of the district, who voted at the last general election in the district, asking that the authorized aggregate indebtedness of the district be increased to not more that .575% of the value of the taxable property therein, is presented to the Board and such increase is approved by the voters of the district at a referendum held on the question."

Assessed Valuation - 2020 Tax Levy	\$ 952,225,500
Legal Debt Limit - 2.875% of Assessed Value Amount of Debt Applicable to Limit	27,376,483 819,705
Legal Debt Margin	26,556,778
Non-Referendum Legal Debt Limit	
0.575% of Equalized Assessed Valuation Amount of Debt Applicable to Debt Limit	5,475,297 819,705
Non-Referendum Legal Debt Margin	4,655,592

Notes to the Financial Statements December 31, 2021

#### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

## NET POSITION CLASSIFICATIONS

Net investment in capital assets was comprised of the following as of December 31, 2021:

Governmental Activities	
Capital Assets - Net of Accumulated Depreciation	\$ 12,057,846
Plus:	
Unspent Bond Proceeds	3,617,933
Less Capital Related Debt:	
General Obligation/ARS Bonds	(9,799,705)
Unamortized Premium on Debt Issuance	(1,213,308)
Capital Leases Payable	(33,999)
Net Investment in Capital Assets	4,628,767
Business-Type Activities	
Capital Assets - Net of Accumulated Depreciation	5,882,055

## FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

*Nonspendable Fund Balance.* Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Commissioners; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Notes to the Financial Statements December 31, 2021

#### NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

## **FUND BALANCE CLASSIFICATIONS - Continued**

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Commissioners' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Commissioners itself or b) a body or official to which the Board of Commissioners has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Commissioners, who is authorized to assign amounts to a specific purpose.

*Unassigned Fund Balance*. Consists of residual net resources that have not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

		Special Revenue	Debt -	Capital Projects Park		<b></b>
	General	Recreation	Service	Bonds	Nonmajor	Totals
Fund Balances Restricted Property Tax Levies						
Special Recreation	\$ —	_		_	470,467	470,467
Liability Insurance					74,988	74,988

## **NOTE 4 - OTHER INFORMATION**

## RISK MANAGEMENT

## Park District Risk Management Agency (PDRMA)

The District is exposed to various risks related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and net income losses. Since 1992, the District has been a member of the Park District Risk Management Agency (PDRMA) Property/Casualty Program, a joint risk management pool of park and forest preserve districts, and special recreation associations through which property, general liability, automobile liability, crime, boiler and machinery, public officials', employment practices liability and workers compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit. The following table is a summary of the coverage in effect as of January 1, 2022 to January 1, 2023:

Number   Deductible   Retention   Limits		T	PDRMA Self-	
Coverage		Member		
PROPERTY	Coverage	1110111201		Limits
Property/Bldg/Contents		Deductible	Retention	Limits
All Losses Per Occurrence		Т	Ι

Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of the District.

As a member of PDRMA's Property/Casualty Program, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body.

Notes to the Financial Statements December 31, 2021

#### **NOTE 4 - OTHER INFORMATION - Continued**

#### **RISK MANAGEMENT - Continued**

## Park District Risk Management Agency (PDRMA) - Continued

The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigations and settlement, and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

As a member of PDRMA's Property/Casualty Program, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body.

The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigations and settlement, and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA's Property/Casualty Program balance sheet at December 31, 2020 and the statement of revenues and expenses for the period ending December 31, 2020. The District's portion of the overall equity of the pool is 0.437% or \$247,770.

Assets	\$ 76,433,761
Deferred Outflows of Resources - Pensions	1,015,561
Liabilities	19,892,387
Deferred Inflows of Resources - Pension	798,816
Total Net Position	56,758,119
Operating Revenues	19,454,155
Nonoperating Revenues	4,109,196
Expenditures	16,158,333

Since 89.98% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the Member Balances are adjusted annually as more recent loss information becomes available.

Notes to the Financial Statements December 31, 2021

#### **NOTE 4 - OTHER INFORMATION - Continued**

#### CONTINGENT LIABILITIES

## Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

#### **Grants**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

## Financial Impact due to COVID-19

In March of 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the District's operations and financial position cannot be determined.

#### **DEFERRED COMPENSATION PLAN**

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all District employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. All amounts of compensation deferred under the plan are held in trust on behalf of the employees. Accordingly, the assets are not reported in these financial statements.

## EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

## Illinois Municipal Retirement Fund (IMRF)

The District contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at <a href="https://www.imrf.org">www.imrf.org</a>. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Notes to the Financial Statements December 31, 2021

#### **NOTE 4 - OTHER INFORMATION - Continued**

## EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

## Illinois Municipal Retirement Fund (IMRF) - Continued

## **Plan Descriptions**

*Plan Administration*. All hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Notes to the Financial Statements December 31, 2021

#### **NOTE 4 - OTHER INFORMATION - Continued**

## EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

## Illinois Municipal Retirement Fund (IMRF) - Continued

## **Plan Descriptions - Continued**

*Plan Membership.* As of December 31, 2021, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	13
Inactive Plan Members Entitled to but not yet Receiving Benefits	11
Active Plan Members	24
Total	48

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended December 31, 2021, the District's contribution was 18.63% of covered payroll.

*Net Pension Liability*. The District's net pension liability was measured as of December 31, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2021, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.25%
Inflation	2.25%

Notes to the Financial Statements December 31, 2021

#### **NOTE 4 - OTHER INFORMATION - Continued**

#### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

### Illinois Municipal Retirement Fund (IMRF) - Continued

#### **Plan Descriptions - Continued**

Actuarial Assumptions - Continued. For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term
		<b>Expected Real</b>
Asset Class	Target	Rate of Return
Fixed Income	25.00%	2.00%
Domestic Equities	39.00%	4.50%
International Equities	15.00%	5.75%
Real Estate	10.00%	5.90%
Blended	10.00%	4.30% - 8.10%
Cash and Cash Equivalents	1.00%	1.70%

Notes to the Financial Statements December 31, 2021

#### **NOTE 4 - OTHER INFORMATION - Continued**

#### EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

# Illinois Municipal Retirement Fund (IMRF) - Continued

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

### **Discount Rate Sensitivity**

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the District calculated using the discount rate as well as what the District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.25%)	(7.25%)	(8.25%)
Net Pension Liability	\$ 2,346,591	1,300,371	479,028

#### **NOTE 4 - OTHER INFORMATION - Continued**

#### OTHER POST-EMPLOYMENT BENEFITS

#### General Information about the OPEB Plan

*Plan Description*. The District's defined benefit OPEB plan, Retiree Benefit Plan (RBP), provides OPEB for all permanent full-time general employees of the District. RBP is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided. Retirees and their eligible dependents can remain as participants in the District's medical insurance plan. The District provides a premium discount based on years of service (25% to 50% of the costs of the premiums). The discount is calculated at the time of retirement and is the maximum allowed until the staff member reaches 65. Spouse and dependents are not eligible for discount and retirees pay the full costs of the premium for them.

Plan Membership. As of December 31, 2020, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	2
Inactive Plan Members Entitled to but not yet Receiving Benefits	_
Active Plan Members	24
Total	26

#### **Total OPEB Liability**

The District's total OPEB liability was measured as of December 31, 2020, and was determined by an actuarial valuation as December 31, 2021.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

# Notes to the Financial Statements December 31, 2021

### **NOTE 4 - OTHER INFORMATION - Continued**

### **OTHER POST-EMPLOYMENT BENEFITS - Continued**

# **Total OPEB Liability - Continued**

Actuarial Assumptions and Other Inputs - Continued.

Inflation	3.00%
Salary Increases	4.00%
Discount Rate	2.25%
Healthcare Cost Trend Rates	6.60% for 2021, decreasing to an ultimate rate of $4.5%$ for 2034 and later years
Retirees' Share of Benefit-Related Costs	100% of projected health insurance premiums for retirees

The discount rate is based on S&P Municipal Bond 20 Year High-Grade Rate Index as of December 31, 2021.

Mortality rates were based on the PubG.H-2010 General Mortality Table with Mortality Improvement using Scale MP-2020

# OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

Budgetary Comparison Schedules - Major Governmental Funds

Combining Statements - Nonmajor Governmental Funds

Budgetary Comparison Schedules - Nonmajor Governmental Funds

Budgetary Comparison Schedules - Enterprise Fund

Consolidated Year-End Financial Report

# INDIVIDUAL FUND DESCRIPTIONS

#### **GENERAL FUND**

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

#### SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital projects funds) that are legally restricted to expenditure for specified purposes.

#### **Recreation Fund**

The Recreation Fund is used to account for financial resources of the swimming pools, Community Center and other recreation programs.

### **Liability Insurance Fund**

The Liability Insurance Fund is used to account for liability insurance expenditures and the property taxes specifically levied to fund these expenditures.

### Joint Handicap Fund

The Joint Handicap Fund is used to account for the expenditures in connection with the Special Recreation of Joliet and Channahon, which provides recreation programs to the handicapped and impaired.

#### **DEBT SERVICE FUND**

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

#### CAPITAL PROJECTS FUND

#### **Park Bonds Fund**

The Park Bonds Fund is used to account for accounts for all resources used for the acquisition and maintenance of capital assets or the construction of capital projects and related debts.

# **INDIVIDUAL FUND DESCRIPTIONS - Continued**

#### **ENTERPRISE FUND**

The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where it has been decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose.

# **Golf Operations Fund**

The Golf Operations Fund is used to account for the financial resources and operations of the Golf Course.

# STATISTICAL SECTION (Unaudited)

This part of the comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

#### Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

#### Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue sources.

### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the government's ability to issue additional debt in the future.

# Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

### Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Net Position by Component - Last Ten Fiscal Years\* December 31, 2021 (Unaudited)
